

LUXURY FIREPLACES

COMPROMISE IS NOT AN OPTION

With endless installation capabilities and unlimited design flexibility, the Plaza Fireplace expands the realm of possibility.

UNLIMITED DESIGN FLEXIBILITY

The Plaza's innovative heat redistribution system allows for a TV, artwork, or mantel to be safely installed as low as 8 inches above the fireplace.

Bring any finishing material right up to the opening of the fireplace – no need for non-combustible board or special framing.

ENDLESS INSTALLATION CAPABILITIES

Unobstructed views are possible thanks to the Plaza's unique venting configuration, which even allows windows to be installed above the fireplace.

The Plaza utilizes Power-Vent Technology, which means greater vent run lengths than traditional natural draft fireplaces. This makes additional elbows possible, including the ability to vent down below the fireplace.

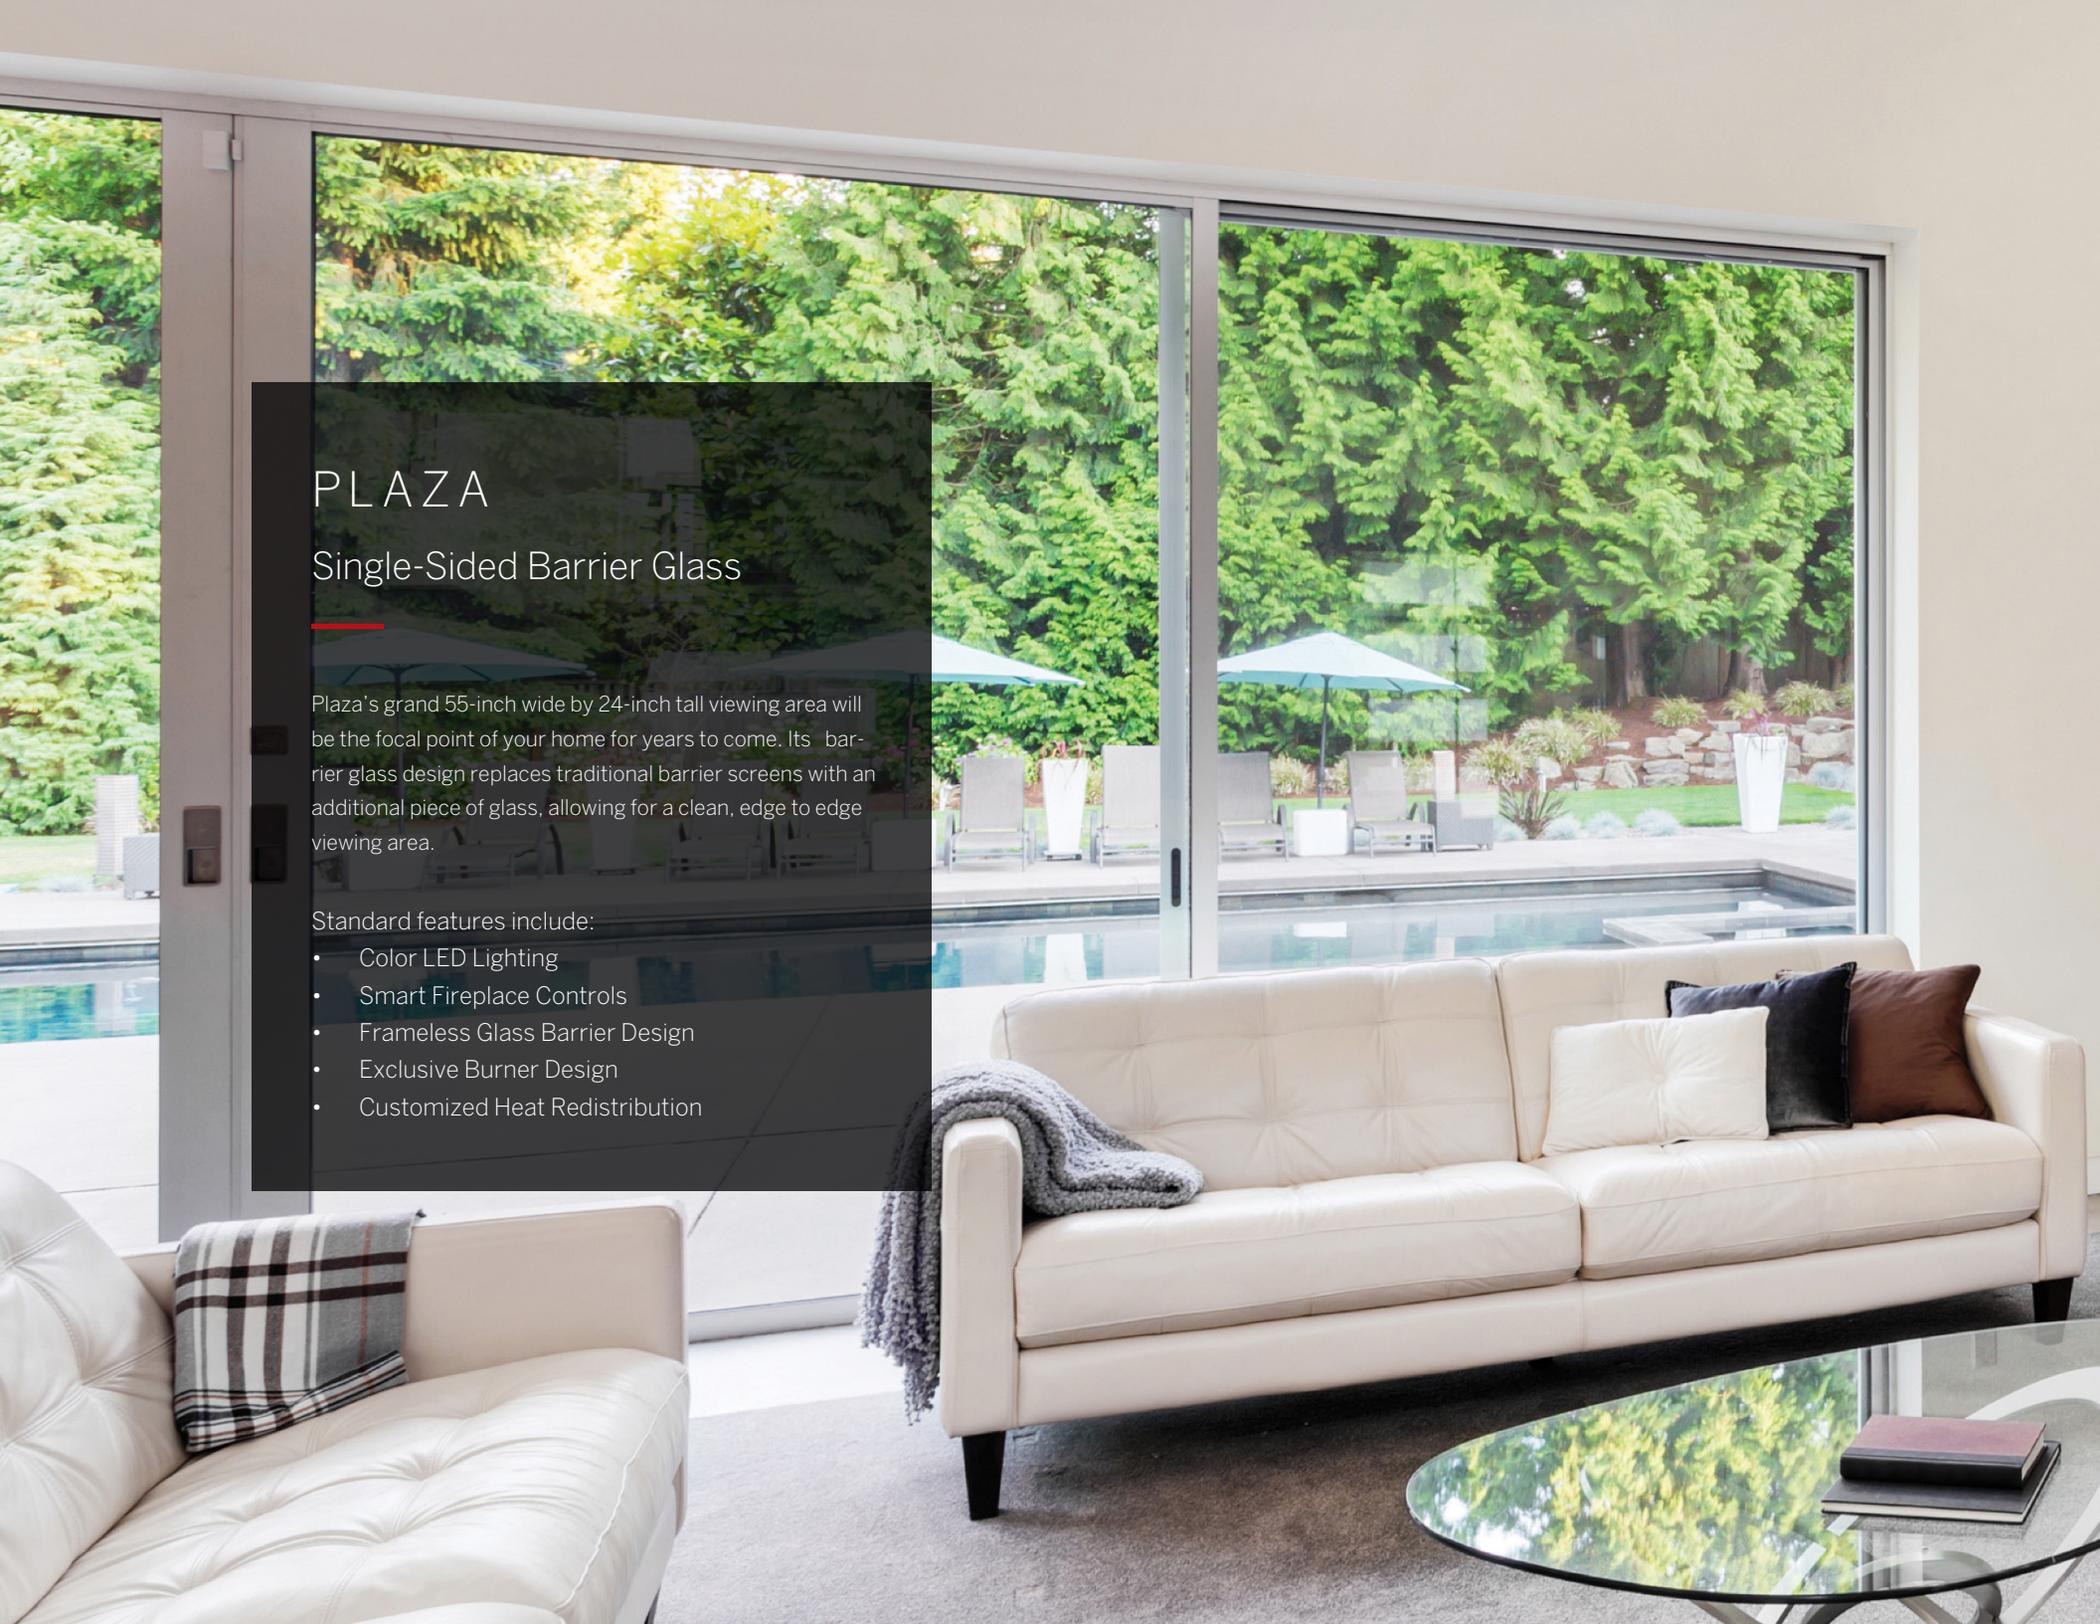

PLAZA

Single-Sided Barrier Glass

Plaza's grand 55-inch wide by 24-inch tall viewing area will be the focal point of your home for years to come. Its barrier glass design replaces traditional barrier screens with an additional piece of glass, allowing for a clean, edge to edge viewing area.

Standard features include:

- Color LED Lighting
- Smart Fireplace Controls
- Frameless Glass Barrier Design
- Exclusive Burner Design
- Customized Heat Redistribution

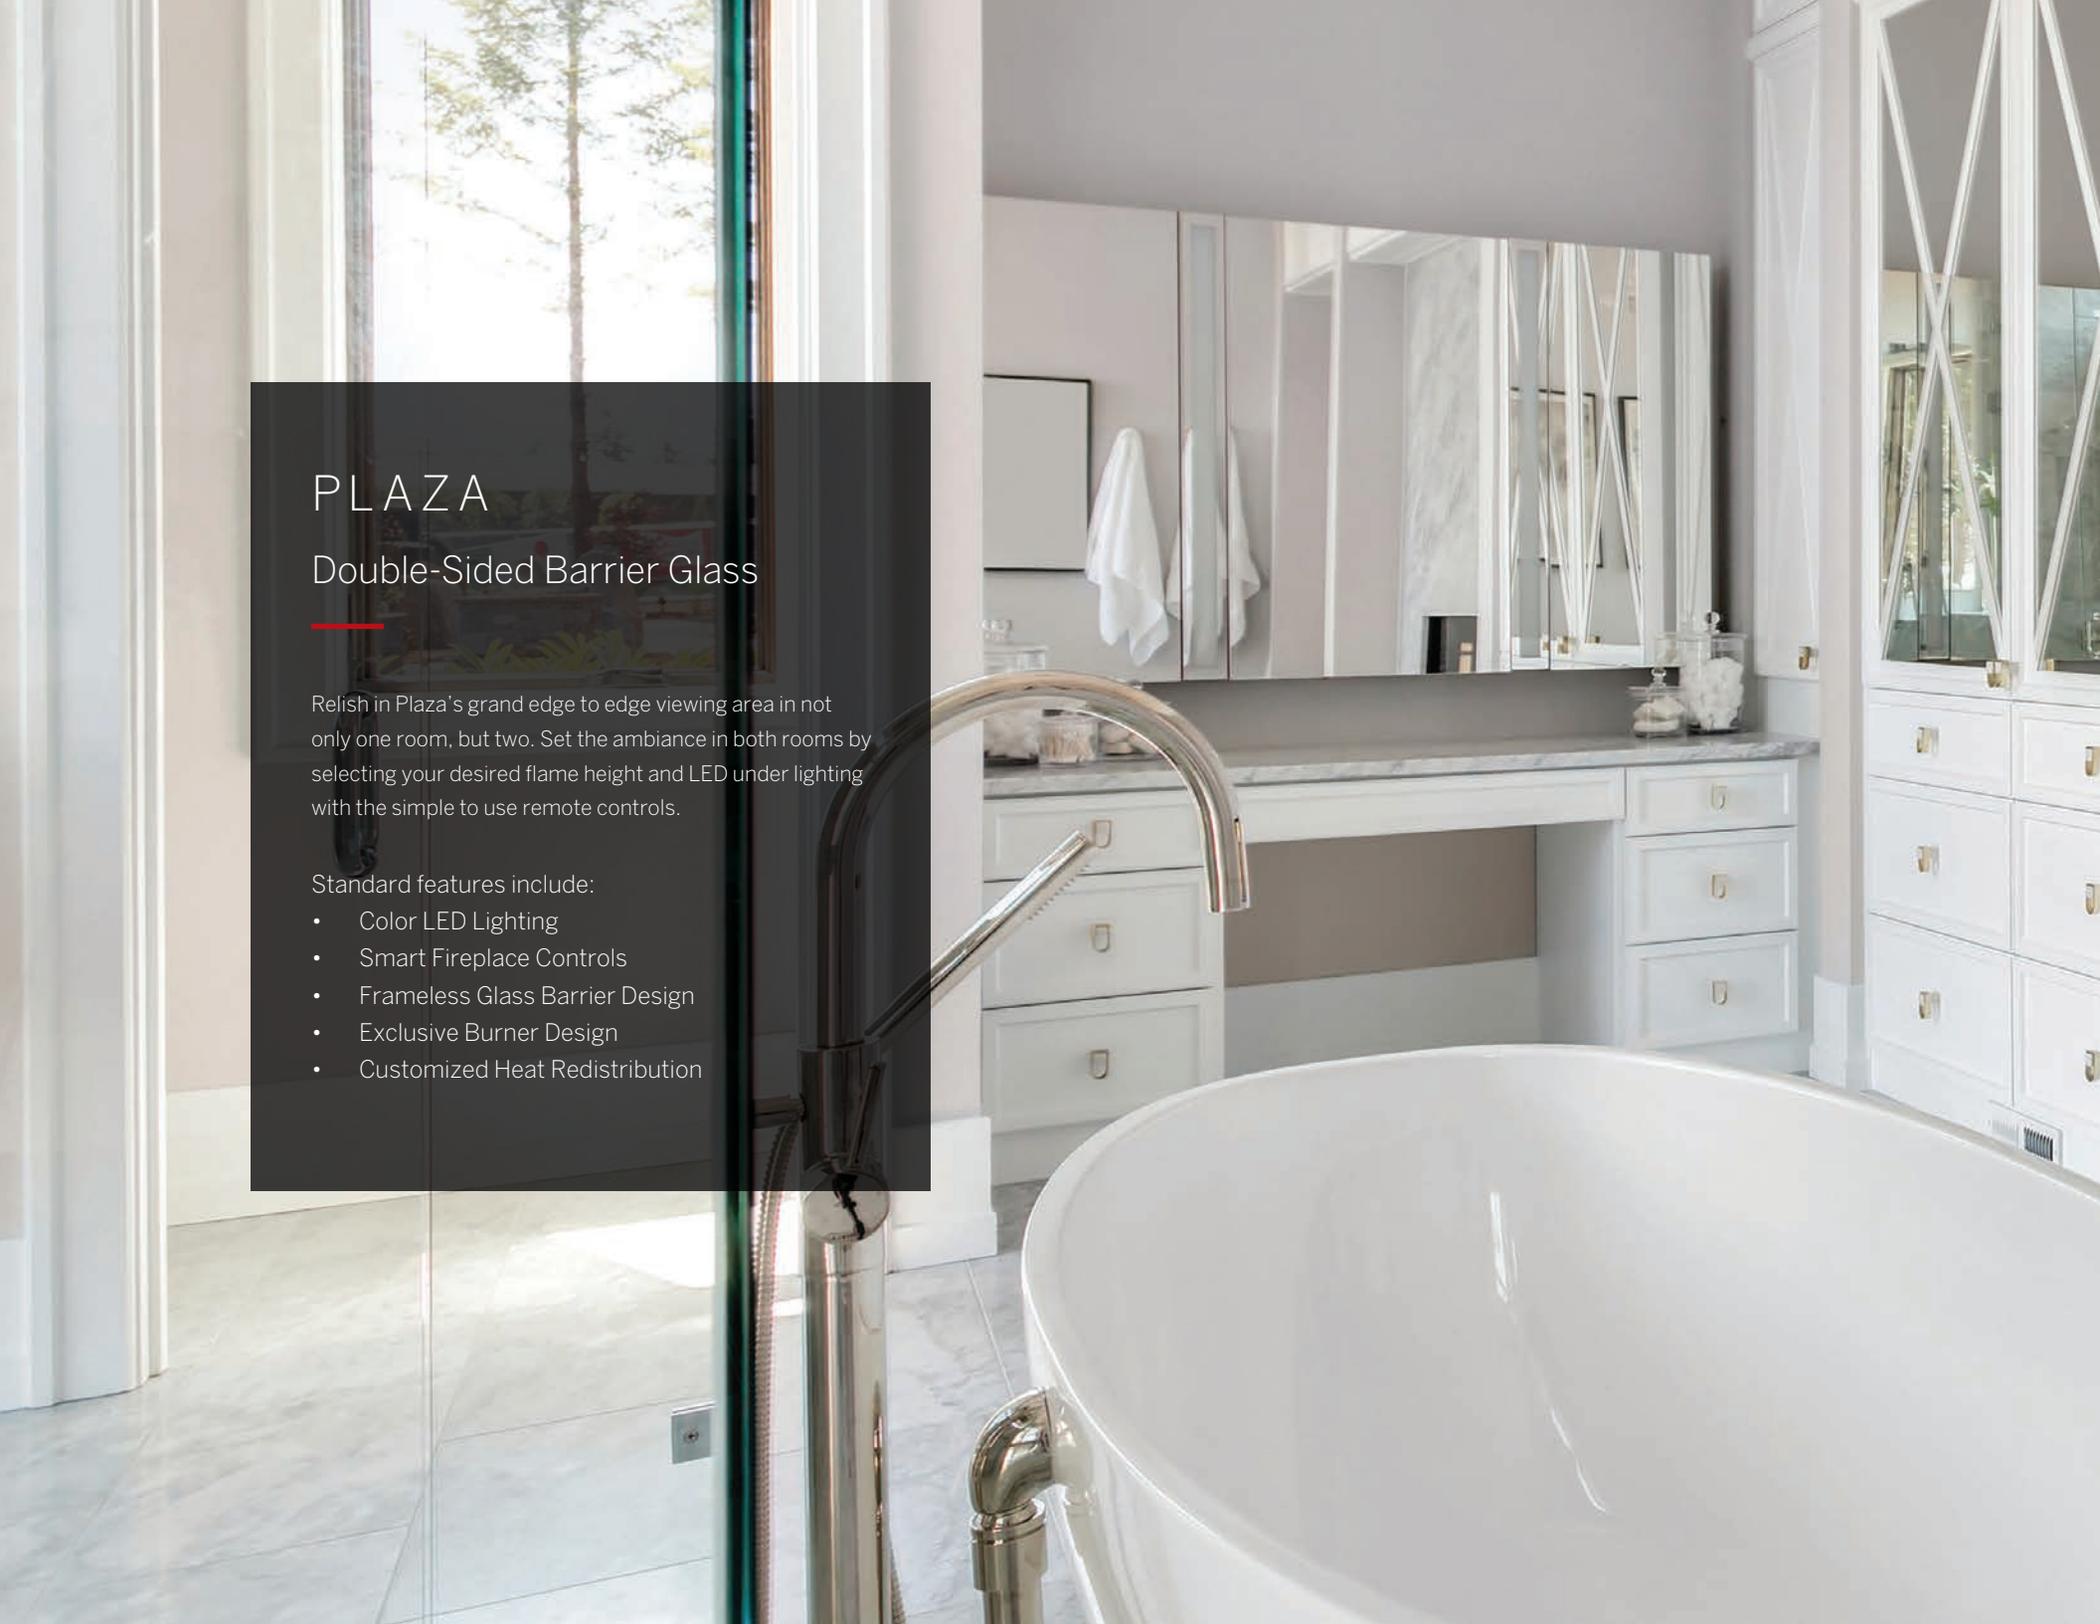

PLAZA

Double-Sided Barrier Glass

Relish in Plaza's grand edge to edge viewing area in not only one room, but two. Set the ambiance in both rooms by selecting your desired flame height and LED under lighting with the simple to use remote controls.

Standard features include:

- Color LED Lighting
- Smart Fireplace Controls
- Frameless Glass Barrier Design
- Exclusive Burner Design
- Customized Heat Redistribution

PLAZA

Single-Sided Barrier Screen

The Plaza single-sided barrier screen unit is bound to be the centerpiece in any room with its 55-inch wide and 24-inch tall viewing area. Its fine mesh barrier screen allows for a full view of the lively fire while bringing heat into the room. This creates a warm, inviting environment for all to enjoy.

Standard features include:

- Color LED Lighting
- Smart Fireplace Controls
- Fine Mesh Barrier Screen
- Exclusive Burner Design
- Included Dual Blower Heat Distribution

PLAZA

Double-Sided Barrier Screen

Allow yourself to bask in the Plaza double-sided barrier screen's sophisticated and contemporary feel offered in not only one room, but two. Utilize the simple-to-use remote controls to highlight the dancing flames by selecting from a broad spectrum of LED under-lighting.

Standard features include:

- Color LED Lighting
- Smart Fireplace Controls
- Fine Mesh Barrier Screen
- Exclusive Burner Design
- Included Dual Blower Heat Distribution
